

Geelong's Social Innovators are Stepping Up.

Geelong Tech School (GTS), in conjunction with Crazy Ideas College (CIC), is leading a 1-day Social Innovators (SI) program in the Term 2 school holidays.

Substantial benefits arise when we unlock the energy, wisdom and talents of young people. Many young people are looking for opportunities to lead change and learn skills they need to thrive in the modern world.

Over the course of the day young people will invent services, programs and products that enrich the lives of their fellow citizens.

How does it work? CIC are facilitating the 1-day program during which young people will move through the CIC Social Innovators journey.

Young people undertake the program in teams. As they follow the SI process young people: discover new insights around issues they care about, generate crazy good ideas, prototype how these ideas can work in community and develop compelling pitches that are presented to community and business leaders.

Bringing ideas to life. Teams will have the opportunity to bring their ideas to life at the completion of the program.

See short video explaining the program [here](#).

Step up and sign up for the Geelong Social Innovators program.

Who? The event is open to all teenagers.

When? Tuesday 6th of July.

Where? Geelong Tech School.

Please contact Zoe from CIC to learn more or register via the below Eventbrite link.
